DETAILED ACTION

1. In applicant's amendment filed on 4/18/05, applicant amended the specification, cancelled claims 1-34, and added new claims 35-68, which included independent claims 35, 48, 56, and 68. Applicant further filed an RCE on 4/18/05. In applicant's amendment filed on 9/16/05, applicant cancelled claims 35-68 and added new claims 69-94, which included independent claims 69 and 83. In applicant's amendment filed on 3/24/06, applicant cancelled claims 69-94 and added new claims 95-112, which included independent claim 95. Thus, claims 95-112 are pending in the application.

Continued Examination Under CFR 1.114

2. A request for continued examination under 37 CFR 1.114 was filed in this application after appeal to the Board of Patent Appeals and Interferences, but prior to a decision on the appeal. Since this application is eligible for continued examination under 37 CFR 1.114 and the fee set forth in 37 CFR 1.17(e) has been timely paid, the appeal has been withdrawn pursuant to 37 CFR 1.114 and prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 3/24/06 has been entered.

Response to Amendment

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 1743

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. **Claim 95-112** are rejected under 35 U.S.C. 102(b) as being anticipated by Oberhardt (US 5677133).

The reasons for this rejection are the same as set forth in paragraph 3 of the last Office action filed on 11/29/05 because the new claims 95-112 are essentially the same as the previously cancelled claims 68-94.

Response to Arguments

5. In response to applicant's argument that Oberhardt does not teach the function of inducing a negative pressure differential on the sample to direct it through a channel to a test surface, applicant should note that because the new independent claim 95 and the previously cancelled independent claims contain intended use terms, the Examiner will interpret these claims in light of the structural elements that are disclosed and not for their intended use as stated after the term "for." It has been held that a recitation with respect to the manner in which a claimed apparatus is intended to be employed does not differentiate the claimed apparatus from a prior art apparatus satisfying the claimed structural limitations. *Ex parte Masham*, 2 USPQ2d 1647 (1987).

Therefore, because the structural limitations of the applied reference, Oberhardt, is capable of meeting the functions claimed in independent claim 95, it is considered to meet the limitation of intended use recited in applicant's independent claim 95 to a device.

Conclusion

6. This is a continued examination of applicant's earlier Application No. 10/026610. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
